SUMMARY

I am a Computer Science and Engineering graduate with expertise in data analysis, AI prompting, research, and management. With academic technical knowledge, I'm very fluent in implementing AI tools to solve daily challenges that optimize workflows.

As a patient and hardworking individual, my ambition is to become a top corporate professional. I am eager to apply my technical expertise to align innovative tech solutions in business development, building strong client relationships, and contributing to impactful results for organizational success.

PROFESSIONAL EXPERIENCE

Foreign Communicator | SoftVence | Sales and Franchise Management

July, 2025 – Feb, 2026

- In this role, I work with international clients across various regions, primarily through Fiverr and other digital platforms, to generate sales and establish long-term business relationships. I handle the complete sales cycle, from understanding client needs and presenting tailored solutions to closing deals and ensuring project delivery. My work covers a wide range of services, including custom apps, websites, mobile applications, UI/UX design, SEO, and other digital solutions. By building trust, negotiating effectively, and collaborating closely with the development team, I ensure projects are delivered to client satisfaction while contributing to the company's overall growth and reputation in the global market.

Learning Consultant | Jr. Business Development Executive NetCom Learning Global Ltd

Dec, 2024 – May, 2025

- I have generated and qualified leads through multiple channels, ensuring alignment with company solutions. Maintained and updated the CRM with client data and activities. Researched and created high-quality content, documentation, and presentations to support the sales team. Collaborated on new business opportunities and delivered tailored presentations to clients, highlighting IT and learning solutions. Supported the full sales cycle from lead generation to closing deals while developing and maintaining sales strategies, client engagement processes, and content materials.
